

DOCUMENT #11: Mrs. J. Chene

May 10, 1992

I, the undersigned, Mrs. J. Chene, do hereby attest:

That I have solicited the intervention of Philip Savage's Healing practice in order to resolve the following health problem: Relapse of a terminal breast cancer that radiotherapy has been unable to cure.

That I have gone to his Nanterre office on one occasion.

That I have never been induced by Philip Savage to interrupt or to modify my medical treatment because I am positive that his interventions are not related to the medical field.

That after the cares of Philip Savage, I experienced the following results: My health condition improved so much that I was even able to go on trips in the months that followed.

Unfortunately, I have been unable to finish Philip Savage's treatment due to the police operation. I now do need his cares.

Jacqueline Chene

May 10, 1992

I wish to add that these persecutions and these attacks against Philip Savage are but appalling and drive me utterly revolted. Democracy is not to allow people to be burned and killed by inefficient therapists. Democracy is to let persons with real Healing abilities practice with true Liberty to help mankind in the name of God!
