

DOCUMENT #16: Mrs. D. Collas

March 24, 1992

I was totally appalled when I received an official demand from the (political) police urging me to complain against Philip Savage whom they were trying to describe as a fraud. Of course, I immediately threw away this document since I have been thoroughly satisfied with his cares as a Healer:

On March 18, 1991, I wrote to apply for his cares about my 4.5 cm left side ovarian cyst.

On June 3, 1991, in order to check the possible results, I decided to pass a new sonographic exam. Results: the doctors were unable to rediscover any cystic formation!

On October 10, I decided to do once more the exam: The doctors then confirmed the total disappearance of the cyst!

I send you all the proofs of such results and I want to express once more my true gratefulness for the efficient cares of Philip Savage.

Sincerely,
