

SAVING BURNED CELLS ON LIVE TV

Subliminal Mind Control technology used for Health, Earth and International Security

Sochi, Russia - December 12, 2016 The FireBurnDoctor team offers to show how it is possible to “heal” burned cells using the same Subliminal Mind Control technology that they used to “heal” 1500 burn victims from a distance. The team of volunteers who are sponsored by the non-profit organization Catharsis are willing to show this unique laboratory experiment live on TV. What works on cells also works on humans. This experiment proves that it is unnecessary to still suffer from a burn because the FBD team can also teach others to use this technique.

The FireBurnDoctor (FBD) team of worldwide volunteers, personally trained by Dr Philip Savage, are focusing on the Global Burn Eradication Project. The team can “process” burn victims within the first 30 minutes. The whole service is free and works remotely. Over the last 5 years, the FBD helped more than 1500 burn victims from 58 countries of the world, all with the same results: pain gone in minutes, burn erased in hours. Filmmaker Jane Clements produced the award-winning film, *RUSH*, to document the FBD's extraordinary results. She is thrilled that her movie is being honored at the Sochi International Film Awards as the humanitarian documentary with the strongest message they have ever seen.

"It is the most powerful technology in the world."

Dr Jane Dillon, president of Catharsis

The science behind *RUSH* is Subliminal Distant Influentiality (SDI). SDI is not only used to help burn victims, it is also used for health, enhancement, morphogenic transformation, success in legal, business, and family crises and, most potently, against terrorism. The results are precise, efficient, laser-like and certain. “It is the most powerful technology in the world”, says Dr Jane Dillon, president of Catharsis and director of the FireBurnDoctor team's projects.

Catharsis is an eco-humanitarian non-profit corporation based in California since 1999 that focuses on individual, societal, international and environmental change. Catharsis specializes in Genomics, Cellular Anagenesis and Morphogenic Composite-Ideogram Cybernetics (MCC) to optimize health, reverse aging, reduce crime, raise human consciousness and teach private clients and qualified student candidates the power of SDI.

“Everybody is a natural born healer. I am trying to bring them back to their primordial condition of healers,” says Dr Philip Savage, Ph.D., the founder of the science of Subliminal Influentiality. Dr Savage is renowned in the United States and Europe for resolving the most life-threatening health crises in thousands of cases, using Subliminal Influence technology. SDI is non-physical, non-therapeutic, non-pharmaceutical and painless. It has been tested and validated for more than 25 years by medical professionals, universities, laboratories and most recently in global public experiments on burns and shingles.

"I thank God every day that these are the abilities we have now."

Actress Mary Badham, still haunted by her traumatic training in a hospital burn unit, exclaims in *RUSH*.

The advanced mind control technology has unlimited possibilities for enhancement and security in all sorts of ways. For example, Catharsis' Earth-saving project IMAGO is dubbed *The Most Amazing Cosmic Project in all Human History*. Sociologist Jane Dillon says, "IMAGO is the ultimate step in Quantum Biocybernetic Evolution, the evolutionary leap to humanity's higher consciousness that is long overdue." The first prototype of IMAGO transmutational pyramids is ready to go. It can be constructed and secured in just 6 months using an even more advanced application of mind control technology that requires physical materials and cybernetic substances for processing people to their fullest potential. After that, these transmutational athanors can be built all over the planet.

Six months are needed for the Way Out

The greatest value of the movie *RUSH* is the proof it provides the public; visible, scientific proof that SDI works. It informs citizens and governments of the unlimited possibilities for personal enhancement and international security. Dr Philip Savage says, “I cannot think of a person, or a group of persons working together toward a specific goal or toward some material outcome, who would not benefit from using my subliminal influence technologies to bring about a complete change of attitude (political, commercial or personal) of some targeted individual or individuals. People actively exposed to my subliminal procedure are driven to do, unconsciously, things they otherwise would not do, or vice versa, not do things they otherwise would do.”

Catharsis is prepared to organize press conferences anywhere in the world for media to film on live TV the results of processing burning cells in scientific and medical laboratories using the Subliminal Mind Control technique, SDI. In *RUSH*, Dr Savage guarantees, “This is the most simple thing to be tested scientifically. Give me cells, we burn them. All the cells I'm taking care of don't die. All the cells I'm not taking care of, of course, die. And people [I train] will do exactly the same.” Proof for the public of the very existence of a higher power through irrefutable scientific methodology, for the first time in human history.
