

THE WARSHAL

By Philippe Sauvage

Deontological, Ethical and Scientific Manifesto on the Origin and Treatment of Evil

The Warshal is the most recent epic installment in a life of authorship and research and is purely Philippe Sauvage at his ever-improving best. *The Warshal* is a work combining paleontology, biology, history of all eras and epochs, theology and so much more. It is at times an autobiography, but always it is a Biography of Life. Indeed, it conclusively addresses the meaning of Life and the meaning of Justice without which Life wouldn't exist AND the meaning of Evil which threatens both. Here are a few excerpts from *The Warshal*:

"...I slowly begin to lift up the veil that has haunted mankind from the very dawn of its incipience, the veil of its own ultimate cosmic and existential truth..." (*The Warshal*, 0:1)

"Now, most literally, let us go back to the 'Source'. I would not like anyone to have become so 'taken' in by those 'cosmic conflicts' between 'Beings of Light' and 'Super-Being of Darkness' or between 'Cosmo-Warshals' and traitorous 'bio-cybernetic regulators', to think that, somehow, I have been neglecting the one and only 'direct pipeline' that we (or anyone else throughout the whole universe, for that matter) have with the 'Ultimate Divine'. I have not. Without my clarification on what has been happening and what is still happening at the macrocosmic level, one would not appreciate in its full extent, the inherent sacredness of all the extraordinary processes that take place within our microcosms. And, the deeper and the deeper one goes, the more one is getting closer to the 'Transcendence Within.'" (*The Warshal*, 9:1)

"So, the world is not irredeemable, man is not born a sinner, the most elevated existential meanings exist in this life...not the next. Unbeknownst to them, there are extraordinary powers in people that just ask to be reawakened, a true Divine, much greater than any previous idea of 'god' dwells within everyone. There are unbelievable advanced 'Beings of Light' out there who protect us, who advise us and are ready to share with us their cosmic wisdom after we have learned to reestablish bio-communication systems. There is no death, just an infinite bio-diversity of ONE sacred global existence. There is no 'hell' but our living Hell. Everything that is natural is rightful. You have the sacred duties to expand all your natural sensorial horizons.... Through unconditional Love and Justice everyone can be granted immediate self-redemption from the 'Divine Source.' Bio-Grace is at anyone's reach, freely and readily when one regains the sense of her or his own inner Sacredness." (*The Warshal*, 9:9)

We expect that you have begun to recognize the complete honorability of Philip Sauvage; you may even realize that his "new" word, Peiradigm – derived from the Greek 'peira' meaning proof, evidence, trial, experiment – launches an entirely new 'body of knowledge' (EXPERICISM) established on proven truths, leaving in the dust the axiomatic conjectures (mere belief) of cultural paradigms. (*The Warshal*, 15:10)

In *The Warshal*, you will see the veils of disinformation across the millennia pulled away to expose a beauty of correlation between subjects and concepts previously assumed or indoctrinated to be unrelated. In fact, all things ARE related. Imagine a 3-Dimensional puzzle of cosmic proportion wherein ALL things connect directly or by paths of evolution in genetics or thought. Imagine complete cross-reference between Life and Death, God and Evil, evolution and creation, physics and the various cosmogonies, Christianity and paganism, Judaism and Buddhism, chemistry and alchemy, political science and theology, where even the lies and untruths are connected to the Truth, from which they rebelled, by chains of development and causation. Now, imagine a puzzle without limit on the number of dimensions incorporated!

The Warshal is the semantic tool with which Philip Sauvage exposes the weak foundations of our commonly believed assumptions as a species and as civilization. He tears away the veils and lays the foundation for a new future built on truth and proof, then pieces together the seemingly disjointed chaos of our world, cross-references it all with his own life of Service to Life and Justice and further integrates with that picture the many fields of bio-and psycho-restorative sciences he has initiated and propelled throughout his life. *The Warshal* is a complete package of diagnosis of humanity's and the Earth's illnesses and offers the for Evil.

This book is definitely deep; it has life-changing value for those wanting to learn about Druids, Celts and Amazons; Love and Hate, histories of western Europe, Greenland, the Asian Steppes, the Middle East, and even North America. There is profound material here for the political scientist, the biologist and the sociologist, environmentalist, patriot and revolutionary; for warriors and soldiers, chemists and alchemists, feminists, anarchists and physicists, historians and linguists; Christians, Buddhists, Hindus, Muslims and Jews, as well as agnostics, atheists and indigenous peoples. Here you find answers that, for the first time, make sense about life vs. Life/Death, Hell vs. Heaven, God vs. gods vs. Evil, sin vs. "free-will", prayer vs. processing, origin vs. destination, the Holy Grail, war, creation vs. evolution, "the law" vs. The LAW, science and politics, forgiveness vs. redemption, and Transcendental Spirituality.

The Warshal is so packed with value that, just as with using SDI and MCC, there is no person on the planet who could not benefit by reading this book. Unquestionably, the truth is recognizable here and available now for your great benefit. Humans are quickly traversing the gap between Judgment and Sentencing and the watchful eyes of truth and truth's Enforcer see all. Without the necessary prioritization, you (we) are just "grist for the mill."

Evil is so deep in this psychotic world and has been operating for so many millennia that virtually zero people on this planet are aware of the Truth, the real history, the real science, and therefore the real solutions. The time has come for the real solutions to surface. If you understand only one thing from this book, let it be that you DO have purpose in this Life. From *The Warshal*, learn who and what you are.
