

**DOCUMENT #22: Mrs. Dane Belany  
(To the Honorable Federal Judge)**

December 30, 1992

Your Honor:

My name is Dane Belany. I am black. I am an artist and from Senegalese descent.

I am a Christian and a very fervent believer. Everyone is apprised of the Biblical fact that the closer a person comes to the very Truth, the crueler he will be martyred and persecuted. Here is the terrible price that one might pay toward true sanctity.

But I am sick and revolted about the way in which the journalists and the TV, under the direct control of the political police, are thus attacking and slandering a person whose only mission was to help, to save, and to rescue sick people, our environment, endangered species and our third world.

I just hope that such disgusting political schemes will not find any echo in the U.S., (I have been working for ten years in New York as quite a famous artist), which is the very true country of freedom. And I hope that, in a civilization such as America, where such conspiracies could not even exist, ever, Philip Savage will be recognized as an innocent and will, actually, be vindicated.

It is nothing but appalling to think that such a public benefactor as Philip Savage, who was to take care successfully of incurable patients diagnosed as bound to die in a couple of weeks by the official medicine, could ever have been considered as a dishonest person or could have been charged with "fraud."

*278 Articles and Testimonies*

It was fundamental for me to bring forth my testimony and to stress the extent of my revolt and my disgust, since I am myself the true dying victim of a very authentic, very mercantile, very appalling political scandal: The HIV contaminated blood traffic! I proclaim that Philip Savage has been only a scapegoat and a smoke screen for them to mask their own sinful filthiness.

I want my testimony to be produced for his defense.

Respectfully,
