

BEDOC CLAUDINE

(Civil Servant, France Telecom)

In my letter, I wish to testify to the horrible religious and political discrimination by which Philip Savage has been victimized in his country since 1991.

I have known Philip Savage for more than ten years and have often witnessed his struggles and his achievements on behalf of Breton cultural identity to which he was violently and outspokenly dedicated. Privately, I can also testify to the authenticity of his Ministry as "Breton Healer" and of the value of his Celtic Spirituality, both of which have been transmitted to him by his Clan who has practiced its "Breton Healing Ministry" since very ancient times.

Therefore, after he had reached an unheard-of level of media popularity and after he started to be so seriously persecuted, I immediately realized that France, which happens to be the last occidental totalitarian country, used this very same media popularity as the excuse to neutralize the outspoken Breton public defender of Celtic spirituality in Brittany.

I am myself an ardent militant of the Breton cause who had to learn by myself how to even speak the Breton language. I know personally, therefore, how deeply France has been persecuting our Breton minority at the linguistic level. We have also been religiously and ethnically persecuted, especially during the French revolution when the Bretons were subjected to an actual genocide.

As the Breton nationalist newspapers publicly protest, I know for certain that many Breton militants have recently been imprisoned and some even murdered.

When one remembers that Philip Savage represents, by himself, a Spiritual symbol and when one considers his

immense popularity as Breton Healing Minister, one understands how he has come to be so badly persecuted by the Marxist political police in France.

They want either to neutralize him through many years in jail or to kill him as they have already done to other members of ethnic minorities.

I hope, therefore, that the French Socialist government will never succeed in neutralizing Philip Savage and I want my testimony to help him in his case for political asylum.
