

PHILIP DUQUESNE

(Renowned French author, aka "Philip Randa," and leading cultural figure of the Catholic Traditionalists in France)

For many months I have been working on an explosive book about the conspiracy against Philip Savage. I have been directing an ongoing broad investigation of the alleged charges against the French TV, their guest the Prophet Philip and the people of his organization. I have interviewed in person many of Philip Savage's collaborators. My entire investigation and the proof I have gathered all point in one single direction: The whole issue represents a terrible and disgusting political conspiracy organized by the political police of the French Marxist government in concert with media manipulation of unprecedented proportion.

It is clear that the French Marxist government has used the Prophet Philip Savage to attack at the same time the only non-governmental TV station and their journalists. I know for a fact that without this political agenda, they would not have tried to organize such a conspiracy against Philip Savage. I have personally investigated most protagonists in this conspiracy, including innumerable "patients" completely "cured" by Philip Savage, and I am absolutely convinced of his integrity and that of all his collaborators.

I have in my possession many protocols on the procedure used by Philip Savage in his own practice. I know that his ethical standards toward medicine have been always perfect and that Philip Savage's entire operation was exclusively religious in origin.

I want to emphasize strongly the fact that I have known Philip Savage for many years and that I have always been

highly impressed with the intensity of his religiosity as well as the extent of his scientific knowledge.

His expertise in the field of biology and paleontology is extraordinary and I, myself, had the privilege to read his dissertation on evolution. I also remember perfectly well how much the environment and all sorts of endangered species were constantly at the very core of his thinking and his worries.

I know that if Philip Savage was given the chance to be judged in a non-hostile legal environment his innocence should be immediately recognized. Unfortunately, in the corrupt French system where many Ministers, including the former Prime Minister, have been indicted in the AIDS contaminated blood scandal, Philip Savage would not stand a chance. France is no longer a real democracy and I would be indeed concerned for his very physical survival.

All these statements are established from facts coming from my own investigation and I am ready to bear full responsibility for my findings.

Respectfully,
