

DOCUMENT #19: Mr. C. Julian

(Terminal metastatic cancer)

April 3, 1992

To the Judge:

My wife having been formerly informed of Philip Savage's multiple healings in his Country, urged me to try to contact him after we both have seen him on a TV show.

I was then in an indescribable state of total apathy and terribly sick. Beside many problems with my left hip, my main concern was, of course, my prostatic cancer which formerly even implied surgery.

Thanks to the cares of Philip Savage, my health condition has been improved in an amazing way. I have regained my energy and I feel full of vim. I no longer limp when walking with the left leg and I can sleep without any pain.

I want Philip Savage to continue assisting in the improvement of my health in order for me to maintain my new energy and new vim in spite of my 74 years of age.

I beg you to take my request into consideration.

Respectfully.
