

**DOCUMENT #4: George Ladevese, M.D.**  
**(Chairman of the Medical Board and Leader of the**  
**Regional Holistic Medicines)**

I hereby acknowledge with great solemnity that I actually took in charge many patients who had been directed toward my cares by Philip Savage, whom I met (years ago) while we were both participating in a radio show organized by the official department of Surgery insurance.

In parallel with his own cares, Philip Savage always ordered his consultants to subject themselves to an official medical control. As far as I am entitled to give an opinion on such an issue, all Philip Savage's patients were extremely satisfied with his cares.

Although I am not entirely aware of all the details of the conspiracy against Philip Savage, I feel very sympathetic inasmuch as we, official doctors practicing holistic medicine, are constantly the victims of such machinations. Therefore, I am cruelly aware of all the harmful aftermath's created by an organized defamatory press campaign.

For all that, you can really count on my compassionate solidarity.

G. Ladevese, M.D.
