

DOCUMENT #12: Mrs. C. Lepretre

October 26, 1991

I have just been apprised on all what is going on. I was not aware before of such a situation that is upsetting me beyond description. I am nothing but revolted up to disgust that they dared to attack such a person as Philip Savage, whose life was only a sacrifice to give his energy, his strength and all his time to heal people.

I use purposely the plain concept of Healing and not only relief, because I can testify about my personal condition: I have been completely healed.

After I had wasted my time and my money with the official medicine, it is almost casually that I discovered the existence of Philip Savage. At this time, I was "treated" by doctors who could only provide for my case huge amounts of various psychotropic drugs. I was considered, even by myself, as a lost cause and just good to be finished off.

Due to his Healing Practice on my behalf (I do not dare to say his Gift of God), Philip Savage bestowed on me a new sense of my life. I got back my strength, my vital energy and — above all — he brought me back my very will to live that had previously been annihilated. I also got back my smiling ability and my ethical and mental balance. In one word, I was back!

Little by little, I could be rid of all my drug addictions, and finally, free of any treatment. I was healed. Philip Savage also helped me alot, during and after, my pregnancy.

I can testify that no one but myself decided to apply for Philip Savage's cares. I was just eager to come through my ordeals! And when his first results occurred, I then granted him with all the Faith that I could bring forth.

264 *Articles and Testimonies*

My husband and my whole family long to testify of Philip Savage's phenomenal results and of my complete healing.

Now, when I feel that much health due to his cares, it is incumbent upon myself to do all that I can to defend and to support him and above all to fight against the disgusting and slanderous political conspiracy by which Philip Savage is currently being persecuted. I know that his Strength and Powers might represent a danger to some people and perhaps some doctors, but in no case is it allowed to present him as a fraud or as a dishonest person!

Since all your healed consultants were but incurable cases, I hope that all of them will support you boldly. I want Philip Savage to hold on, because he only did well! I will support him with all my faith. I will think of him with each second of my life. I am enraged to be so far from his Country, otherwise I would have mobilized more actively.

We shall overcome. I am convinced of it.

Lepretre
