

**DOCUMENT #3: Mrs. P. Moreau**

May 7, 1992

I, the undersigned, Mrs. P. Moreau, do hereby attest:

That I have solicited the intervention of Philip Savage's Healing Practice in order to resolve the following health problem: Extreme physical exhaustion, terrible loss of weight, for which there was no effective medical cure. I diagnosed myself as a lost case and felt totally hopeless.

That I went to his office on two occasions.

That I have never been induced by Philip Savage to interrupt or to modify my medical treatment. I am positive that his interventions are not related to the medical field.

That after the cares of Philip Savage, I experienced the following results: My health condition improved immediately after the first session and thereafter everything has been reversed for the best. My illness never relapsed and I still feel healthy. I am gaining weight and strength.

My only hope is to someday have the privilege to meet Philip Savage again. I know for certain that he will be able to help me further and to give me his Force for me to become even stronger. I was indescribably impressed by all that he told me about my inner secret nature.

Since it is God Himself who gave him this Power to rescue his human brethren and to relieve them from their sufferings, absolutely no one should be allowed to interfere!
