

DOCUMENT #18: Mrs. G. Philip

April 15, 1992

To the Judge:

Regarding Philip Savage's case, I insist to bring forth the following indications:

In March of 1991, I applied for Philip Savage's cares on behalf of my 8 year old goddaughter, stricken with mucoviscidosis (Cystic Fibromatosis), this being a truly incurable disease in rapid evolution for which the official medicine is currently incapable of providing any treatment.

Through preliminary talks that I had with one of Philip Savage's collaborators, I was very clearly apprised of the fact that only the symptoms of such a disease could thus be treated; since Pamela was born with such a genetic trouble, it will remain in her heredity.\* I have also been told not to modify or to cancel in any way any medical cares.

Philip Savage's intervention started on March 6, 1991, and at the beginning of April the first proofs of the Healing were already clearly visible. This poor little girl who, since her tenderest infancy has always been unable to sleep normally, was permitted to rest in a regular way. She gained so much strength that she was now capable of having a really normal day of true life, when formerly after school it was necessary for her to be carried by her mother and to be in her bed for the rest of the day.

When formerly, she ought to remain indoors, sheltered from the sun and always subjected to intravenous perfusions, Pamela got the first true vacations of her whole life and was playing normally under the summer sun.

---

\* Translator's note: Pamela is the famous little girl saved by Philip Savage whom has made the headlines of numerous French newspapers.

*Consultant Testimonies 273*

Since the first intervention of Philip Savage, the improvement is constant and always bettering. She is now spending full days outdoors and she has never been sick again, even during the winter season. She no longer has the need to take any antibiotics as it was formerly the case and she is even absolutely indefatigable.

Our greatest delight was to listen to this child herself claiming to everyone of her total healing, corroborated by all the bewildering medical checkups.

Respectfully,

Mrs. G. Philip
